Experience

Oracle India Pvt Ltd

June 2024 – Present

Software Engineer

Hyderabad, Telangana

- Work in Fusion Release Engineering team, Oracle's internal DevOps team serving over 5000 users and managing more than 1200+ projects (both monolith and microservice) CI/CD pipelines.
- Working on Darwin CI from scratch, an internal CI tool designed to replace Jenkins for all CI activities. Using Kubernetes for running CI/CD pipelines in containers instead of using legacy VM based architecture.
- Tech Stack: ReactJS, Javascript (frontend), Docker, Kubernetes, Helidon, Oracle DB (backend).

Kubeflow, CNCF (Google Summer of Code 2025)

April 2025 – Oct 2025

Open Source Contributor — Project: GPU Testing for LLM Blueprints

Remote

- Designed and implemented a GPU execution pipeline using GitHub self-hosted runners on Oracle Kubernetes Engine (OKE) for LLM Blueprint workloads, enabling efficient execution of GPU-intensive Jupyter Notebooks.
- Set up secure infrastructure leveraging OCI VM with NVIDIA GPUs to offload execution from public GitHub runners, improving runtime performance and reproducibility for ML examples.
- Planned and initiated integration of observability stack to monitor execution metrics and identify compute/resource bottlenecks. [Kubeflow Enhancement Proposal PR]
- Tech Stack: Python, Kubernetes, GitHub Actions, OCI, OKE, NVIDIA GPU, PyTorch.

Oracle India Pvt Ltd

May 2023 – July 2023

Software Developer Intern

Hyderabad, Telangana

- Contributed to the FRE team by designing, developing, and deploying a full-stack application for auditing code violations and exceptions, which reduced the time spent by developer and maintainers by 80%.
- Streamlined and automated the auditing workflow through a clean GUI, replacing the previous manual process that relied on complex Excel sheets.
- Worked with a tech stack including ReactJS, SpringBoot, and Oracle DB.

CC Extractor (Google Summer of Code 2022)

June 2022 – Oct 2022

Open Source Contributor

Remote

- Designed and developed an application that enables users to assess and indicate the urgency of incoming calls, enhancing call management and prioritization.
- Gained valuable experience by ideating and coding the project from the ground up, receiving mentorship from senior developers on technology, product design, and community support.
- Utilized Flutter for app development, Figma for design, and Firebase for backend services.

OSS contributions, Conferences and Leadership

- **Contributions:** Kubeflow, Processing Foundation, CNCF, OWASP, Oppia, Keploy, etc
- **Conferences:** Open Source Summit Korea 2025 (Post, Fully funded by Linux Foundation), KubeCon Hyderabad 2025 (Blog, Partially funded by CNCF), KubeCon Delhi 2024 (CNCF Blog), 2nd Wikimedia Summit, IIIT Hyderabad (Website, Fully funded by Wikimedia Foundation)
- **Leadership:** Served as **Technical Secretary 2023-2024** at NIT Trichy, managing the operations of 17 technical clubs and Pragyan fest, with budget of 50+ lakhs. Lead the **TeCOS** open source community from 0 to over 1000 members, mentoring students in open source development and GSoC.

Technical Skills

Languages: Java, Go, Javascript, C++, Python, Dart, C#

Tech Stack: ReactJS/NextJS, Flutter, NodeJS, Helidon, SpringBoot

Cloud/DevOps: CI/CD, Docker, Kubernetes, Oracle Cloud, Azure, AWS, Google Cloud

Courses: Certified Kubernetes Application Developer (CKAD) and Introduction to AI/ML Toolkits with Kubeflow (LFS147)

Education

National Institute of Technology, Tiruchirappalli

Nov 2020 - June 2024

Bachelor of Technology, Civil Engineering (minor in Computer Science), 7.8/10

Tiruchirappalli, Tamil Nadu

St. Xavier's School, Ramnagar

Class 12th, CBSE, 91%, May, 2020

St. Peter's School, Akbarpur

Class 10th, ICSE, 91%, May, 2018
