Experience

Oracle India Pvt Ltd

June 2024 – Present

Software Engineer

Hyderabad, Telangana

- Engineer pipelines for the Fusion Release Engineering team, serving over 5000 users and managing CI/CD for 1200+ monolith and microservice projects.
- Architecting Darwin CI from scratch, an internal tool replacing Jenkins; orchestrating containerized CI/CD pipelines on Kubernetes to replace legacy VM-based architecture.
- Tech Stack: ReactJS, JavaScript (frontend), Docker, Kubernetes, Helidon, Oracle DB (backend).

Kubeflow, CNCF (Google Summer of Code 2025)

April 2025 – Oct 2025

Open Source Contributor — Project: GPU Testing for LLM Blueprints

Remote

- Designed and implemented a GPU execution pipeline using GitHub self-hosted runners on Oracle Kubernetes Engine (OKE) for LLM Blueprint workloads, enabling efficient execution of GPU-intensive Jupyter Notebooks.
- Set up secure infrastructure leveraging OCI VM with NVIDIA GPUs to offload execution from public GitHub runners, improving runtime performance and reproducibility for ML examples.
- Planned and initiated integration of observability stack to monitor execution metrics and identify compute/resource bottlenecks. [Kubeflow Enhancement Proposal PR]
- Tech Stack: Python, Kubernetes, GitHub Actions, OCI, OKE, NVIDIA GPU, PyTorch.

Oracle India Pvt Ltd

May 2023 – July 2023

Software Developer Intern

Hyderabad, Telangana

- Contributed to the FRE team by designing, developing, and deploying a full-stack application for auditing code violations and exceptions, which reduced the time spent by developers and maintainers by 80%.
- Streamlined and automated the auditing workflow through a clean GUI, replacing the previous manual process that relied on complex Excel sheets.
- Worked with a tech stack including ReactJS, SpringBoot, and Oracle DB.

CC Extractor (Google Summer of Code 2022)

June 2022 – Oct 2022

Open Source Contributor

Remote

- Designed and developed an application that enables users to assess and indicate the urgency of incoming calls, enhancing call management and prioritization.
- Gained valuable experience by ideating and coding the project from the ground up, receiving mentorship from senior developers on technology, product design, and community support.
- Utilized Flutter for app development, Figma for design, and Firebase for backend services.

OSS contributions, Conferences and Leadership

- **Contributions:** Kubeflow, Processing Foundation, CNCF, OWASP, Oppia, Kephloy, etc.
- **Conferences:** **Open Source Summit Korea 2025** (Post, Fully funded by Linux Foundation), **KubeCon Hyderabad 2025** (Blog, Partially funded by CNCF), **KubeCon Delhi 2024** (CNCF Blog), **2nd Wikimedia Summit, IIIT Hyderabad** (Website, Fully funded by Wikimedia Foundation).
- **Leadership:** Served as **Technical Secretary 2023-2024** at NIT Trichy, managing the operations of 17 technical clubs and Pragyan fest, with budget of 50+ lakhs. Led the **TeCOS** open source community from 0 to over 1000 members, mentoring students in open source development and GSoC.

Technical Skills

Languages: Java, Go, JavaScript, C++, Python, Dart, C#

Tech Stack: ReactJS/NextJS, Flutter, NodeJS, Helidon, SpringBoot

Cloud/DevOps: Docker, Kubernetes, CI/CD, GitHub Actions, Oracle Cloud, Azure, AWS, Google Cloud

Certifications: **Certified Kubernetes Application Developer (CKAD)**, Linux Foundation (LFS147)

Education

National Institute of Technology, Tiruchirappalli

Nov 2020 - June 2024

Bachelor of Technology, Civil Engineering (Minor in Computer Science), 7.8/10

Tiruchirappalli, Tamil Nadu
