Experience

Oracle India Pvt Ltd

June 2024 – Present

Software Engineer

Hyderabad, Telangana

- Engineered and maintained CI/CD pipelines for the Fusion Release Engineering team, serving **5,000+ developers** and managing builds for **1,200+ monolith and microservice projects**.
- Architected **Darwin CI** from scratch, an internal tool replacing Jenkins; designed containerized CI/CD pipelines on Kubernetes, reducing build times and eliminating legacy VM-based infrastructure.
- Built full-stack features using ReactJS, JavaScript (frontend), Docker, Kubernetes, Helidon, and Oracle DB (backend).

Kubeflow, CNCF (Google Summer of Code 2025)

April 2025 – Oct 2025

Open Source Contributor — Project: GPU Testing for LLM Blueprints

Remote

- Designed and implemented a **GPU execution pipeline** using GitHub self-hosted runners on Oracle Kubernetes Engine (OKE), enabling efficient execution of GPU-intensive Jupyter Notebooks for LLM Blueprint workloads.
- Deployed secure infrastructure on OCI VM with **NVIDIA GPUs**, reducing execution time by offloading workloads from public GitHub runners and improving reproducibility for ML examples.
- Initiated integration of observability stack to monitor execution metrics and identify compute/resource bottlenecks. [Kubeflow Enhancement Proposal PR]
- Technologies: Python, Kubernetes, GitHub Actions, Oracle Cloud Infrastructure (OCI), PyTorch.

Oracle India Pvt Ltd

May 2023 – July 2023

Software Developer Intern

Hyderabad, Telangana

- Designed, developed, and deployed a full-stack auditing application for code violations and exceptions, reducing developer and maintainer review time by **80%**.
- Automated the auditing workflow with an intuitive GUI, replacing manual processes that relied on complex Excel sheets and improving team productivity.
- Technologies: ReactJS, SpringBoot, Oracle DB.

CC Extractor (Google Summer of Code 2022)

June 2022 – Oct 2022

Open Source Contributor

Remote

- Built a mobile application enabling users to assess and prioritize incoming calls based on urgency, enhancing call management workflows.
- Led end-to-end development from ideation to deployment, receiving mentorship from senior developers on technology, product design, and open source best practices.
- Technologies: Flutter, Figma, Firebase.

Open Source, Conferences & Leadership

- Open Source Contributions:** Active contributor to Kubeflow, Processing Foundation, CNCF, OWASP, Oppia, Kephloy, and other projects.
- Conference Speaker/Attendee:** **Open Source Summit Korea 2025** (Post, Linux Foundation scholarship), **KubeCon India 2025** (Blog, CNCF scholarship), **KubeCon Delhi 2024** (CNCF Blog), **Wikimedia Summit 2023** (Website, Wikimedia Foundation scholarship).
- Leadership: Technical Secretary 2023-2024** at NIT Trichy, overseeing 17 technical clubs and Pragyan fest (budget: INR 50+ lakhs). Founded and scaled **TeCOS** open source community to **1,000+ members**, mentoring students in open source development and GSoC preparation.

Technical Skills

Languages: Java, Go, JavaScript, TypeScript, Python, C++, Dart, C#

Frontend: ReactJS, NextJS, Flutter, HTML/CSS

Backend: NodeJS, Helidon, SpringBoot, Firebase

Cloud & DevOps: Docker, Kubernetes, CI/CD, GitHub Actions, Oracle Cloud, AWS, Azure, Google Cloud

Databases: Oracle DB, PostgreSQL, MongoDB

Certifications: **Certified Kubernetes Application Developer (CKAD)**, Linux Foundation (LFS147)

Education

National Institute of Technology, Tiruchirappalli

Nov 2020 – June 2024

Bachelor of Technology in Civil Engineering (Minor: Computer Science) — CGPA: 7.8/10

Tamil Nadu, India
