Experience

Oracle India Pvt Ltd

June 2024 – Present

Software Engineer

Hyderabad, Telangana

- Part of **Fusion Release Engineering org**, maintaining CI/CD platform and infra for Oracle Fusion Apps, serving **5,000+ developers** across **1,200+ monolith and microservice projects**.
- Implemented **Darwin CI** from scratch under senior guidance — a Kubernetes-native solution replacing older Jenkins; designed containerized pipeline execution, **autoscaling**, and **resource quota management** to dynamically schedule CI workloads based on cluster capacity, eliminating legacy VM-based infrastructure.
- Implemented **Darwin ITS**, a self-service validation framework enabling developers to autonomously run pipeline simulations and automated checks against their changes pre-production; adopted by **50+ internal developers**, reducing validation cycle time and introducing per-sprint traceability metrics.
- Built full-stack features using ReactJS (OJET), SpringBoot (Helidon), Podman, Kubernetes, and Oracle DB.

Kubeflow, CNCF (Google Summer of Code)

April 2025 – Oct 2025

Open Source Contributor & Mentor — GSoC 2025, 2026

Remote

- **GSoC 2025**: Designed and implemented a **GPU execution pipeline** using GitHub self-hosted runners on OKE, provisioning secure OCI infrastructure with **NVIDIA GPUs** to automate execution of GPU-intensive LLM Blueprint workloads and eliminate dependency on public GitHub runners.
- **GSoC 2026 Mentor**: Co-mentoring 2 projects — **MCP Server for Kubeflow SDK** (enabling LLM agents to manage TrainJob lifecycle, observability, and pre-flight validation via Model Context Protocol) and **OpenTelemetry integration** for distributed tracing and metrics across Kubeflow SDK pipeline and training workflows.
- Managing **OKE cluster provisioning** and GPU node infrastructure on OCI to support contributor workloads across Kubeflow community

Oracle India Pvt Ltd

May 2023 – July 2023

Software Developer Intern

Hyderabad, Telangana

- Designed, developed, and deployed a full-stack auditing application for code violations and exceptions, reducing developer and maintainer review time by **80%**.
- Automated the auditing workflow with an intuitive GUI, replacing manual processes that relied on complex Excel sheets and improving team productivity.
- Technologies: ReactJS (OJET), SpringBoot (Helidon), Oracle DB.

CC Extractor (Google Summer of Code 2022)

June 2022 – Oct 2022

Open Source Contributor

Remote

- Built and deployed a Flutter mobile application end-to-end as part of Google Summer of Code 2022, under mentorship from senior open source developers.

Open Source, Conferences & Leadership

- **Open Source Contributions**: Processing Foundation, CNCF, OWASP, Oppia, Keploy, and other projects.
- **Conference Speaker**: **Open Source Summit India 2026** (upcoming), **TechFusion Summit 2026**, **GDG Cloud Nagpur**, **CNCF Hyderabad Meetup**.
- **Conference Attendee**: **Open Source Summit Korea 2025** (Post, Linux Foundation scholarship), **KubeCon India 2025** (Blog, CNCF scholarship), **KubeCon Delhi 2024** (CNCF Blog), **Wikimedia Summit 2023** (Website, Wikimedia Foundation scholarship).
- **Leadership**: **Technical Secretary 2023-2024** at NIT Trichy, overseeing 17 technical clubs and Pragyan fest (budget: INR 50+ lakhs). Founded and scaled **TeCOS** open source community to **1,000+ members**, mentoring students in open source development and GSoC preparation.

Technical Skills

Languages: Python, Go, Java, JavaScript, TypeScript

DevOps & Platform: Kubernetes, Docker, Helm, GitHub Actions, Terraform, Podman, CI/CD Pipelines

Cloud: Oracle Cloud (OCI), AWS, Azure, Google Cloud

Observability: Prometheus, Grafana, OpenTelemetry

Databases: Oracle DB, PostgreSQL, MongoDB

Certifications: **CKAD**, AI/ML Toolkits with Kubeflow (LFS147)

Education

National Institute of Technology, Tiruchirappalli

Nov 2020 – June 2024

Bachelor of Technology in Civil Engineering (Minor: Computer Science) — CGPA: 8.1/10

Tamil Nadu, India
